PILOT

The hit crash game.

Shuttle takeoffs are broadcast on a large TV screen in real time. The players are the passengers of this shuttle and their task is to jump off in time before it flies into space.

The longer the participants stay on board, the more they win. At the same time, no one knows in advance how long the shuttle will fly before disappearing over the horizon.

Participants need to choose: take a smaller amount or wait for a larger one, risking being left with nothing.

JUICY DEAL

NEW!
Fruit-themed betting game

Before each round, players place bets on sectors (fruits or symbols). The value of a single bet is defined in the system settings – for example, 1 bet = 1USD.

Once the round ends, payouts are made based on the symbol that lands on the reel.

Free Spins feature

Two Free Spin symbols are always visible on the screen. When a Free Spin symbol lands, it activates a bonus sequence of four additional spins.

During these free spins:

- four different symbols will appear on the reel
- the final payout is calculated as the sum of all four symbols' multipliers

FREE SPIN!

RTP options

Juicy Deal is currently available with three RTP configurations, allowing operators to choose the model that best fits their strategy and market: High, Default and Low.

Gameplay That Captures Attention

There's no time limit – the session continues until the massive gem cracks. Players strike again and again, each hit bringing them closer to the jackpot. But only when the final blow is delivered is the prize unlocked and shared proportionally based on each player's contribution.

In-game “gems” offer additional individual rewards to keep everyone engaged even before the jackpot round. It's not just about luck – it's persistence, timing, and participation.

Our latest release with a completely new mechanic

Each player's tool levels up through active play:

- More hits = stronger pickaxe;
- Inactivity = tool downgrade

Only at the Jackpot Level does the stone begin to weaken and the jackpot becomes available

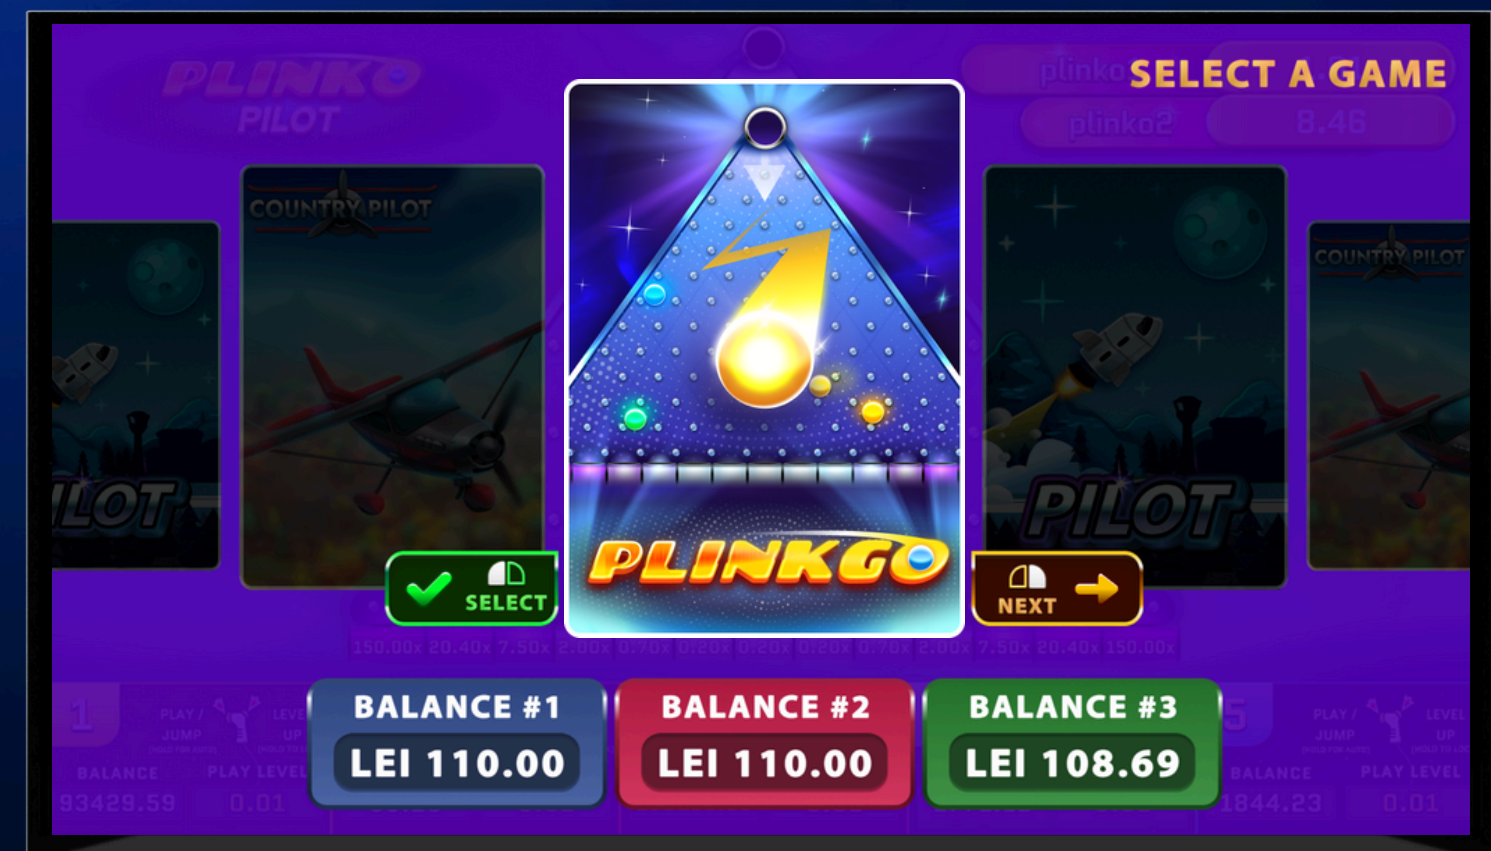

PLINKGO

The world's hit of instant games.

A small ball bounces on the pegs and falls into one of the cells, determining the winning multiplier. Simple but very exciting mechanics are now available in your gambling hall.

Everything in one package:

- Software for broadcasting the top games
- Software for the cashier's work
- Software for the administrator (control and accounting)

Win Wheel

Offer your players all their favorite odds plus an extra range.
